

Jorge Yariel García Caraballoso

FULLSTACK DEVELOPER

Lausanne, Switzerland | +41 76 547 91 50 | gjorgeyariel@gmail.com
Portfolio: jgdev-portfolio-phi.vercel.app
Spanish Nationality | Residence Permit: **B** (Switzerland)

PROFESSIONAL PROFILE

Fullstack Developer with hands-on production experience, specialised in building scalable web applications for event management, hospitality, and business administration sectors. Proficient in modern frontend frameworks (React.js, Angular) and robust backend ecosystems (Spring Boot, Symfony). Proven ability to design efficient RESTful APIs, optimise relational databases, and reduce load times. Currently training in cybersecurity applied to development and secure production deployment.

TECHNICAL SKILLS

Frontend	React.js, Angular, JavaScript (ES6+), HTML5, CSS3, Figma
Backend	Spring Boot, Java, Symfony, Python
Databases	PostgreSQL, MySQL, Hibernate, DBeaver
DevOps & Tools	Docker, Git, GitHub, Linux/Bash, AWS, Postman, CORS
Cybersecurity	System hardening, OWASP, WAF, SSDLC/DevSecOps, ISO 27001, GDPR
Methodologies	Agile, Scrum, REST API Design, CI/CD

PROFESSIONAL EXPERIENCE

Fullstack Developer
Feb 2025 – Feb 2026

CodeArts Solution S.L. · Remote (Huelva, Spain)

- Developed and deployed B2B web applications: an **event management platform** (sports & arts) and a **billing system** for administrative companies.
- Designed and implemented **RESTful APIs**, reducing load times and optimising frontend-backend communication for restaurant and event clients.
- Built reusable, high-performance UI components with **React.js and Angular**, improving user experience across multiple client portals.
- Modelled and managed relational databases (**PostgreSQL**), optimising complex queries, and collaborated with **Git/GitHub** in an Agile/Scrum environment.

Cook / Kitchen Assistant
Nov 2022 – Dec 2024

Restaurant Inglewood · Lausanne, Switzerland

- Teamwork under pressure, priority management and customer service in a multilingual environment, improving French through direct contact with clientele.

KEY PROJECTS

Website — Dog Grooming Salon (Freelance)
2026

React · Vercel · Hostinger (.ch domain)

- Designed and developed a responsive French-language website for a dog grooming salon in Lausanne, with a gallery categorised by grooming type and breed.
- End-to-end delivery: deployment on **Vercel** with a custom domain (**karen-toilettage.ch**); first freelance client project delivered.

E-Commerce Platform & Admin Panel

React · Spring Boot · MySQL · Docker · Hibernate · Figma · Postman

- Developed a complete e-commerce solution with customer-facing storefront and secure admin panel for inventory and order management.
- Backend business logic with **Spring Boot and Hibernate** (secure transactions, endpoints validated via Postman), **Docker** containerisation and UI/UX design in **Figma**.

EDUCATION

Higher Technician in Web Application Development
Oct 2022 – Jun 2025

Cesur, Málaga (Spain)

Cybersecurity Specialisation Course (IT Environments)
2025 – 2026 (ongoing)

Ilerna · Official VET distance-learning centre
