PROFESSIONAL PROFILE

Fullstack Developer with hands-on production experience, specialised in building scalable web applications for event management, hospitality, and business administration sectors. Proficient in modern frontend frameworks (React.js, Angular) and robust backend ecosystems (Spring Boot, Symfony). Proven ability to design efficient RESTful APIs, optimise relational databases, and reduce load times. Bilingual Spanish–English (B2), intermediate French (B1).

TECHNICAL SKILLS

Frontend	React.js, Angular, JavaScript (ES6+), HTML5, CSS3, Figma
Backend	Spring Boot, Java, Symfony, Python
Databases	PostgreSQL, MySQL, Hibernate, DBeaver
DevOps & Tools	Docker, Git, GitHub, Linux/Bash, AWS, Postman, CORS
Methodologies	Agile, Scrum, REST API Design, CI/CD

PROFESSIONAL EXPERIENCE

Fullstack Developer
Feb 2025 – Dec 2025

CodeArts Solution S.L. · Remote (Huelva, Spain)

- Developed and deployed B2B web applications: an **event management platform** (sports & arts) and a **billing system** for administrative companies.
- Designed and implemented **RESTful APIs**, reducing load times and optimising frontend-backend communication for restaurant and event clients.
- Built reusable, high-performance UI components with **React.js and Angular**, improving user experience across multiple client portals.
- Modelled and managed relational databases (**PostgreSQL**), optimising complex queries for large-scale data processing.
- Version control and team collaboration with **Git/GitHub** in an Agile/Scrum environment.

KEY PROJECTS

E-Commerce Platform & Admin Panel

React · Spring Boot · MySQL · Docker · Hibernate · Figma · Postman

- Developed a complete e-commerce solution with customer-facing storefront and secure admin panel for inventory and order management.
- Implemented backend business logic with **Spring Boot and Hibernate**, ensuring secure data transactions and robust API endpoints validated via Postman.
- Containerised the full application stack using **Docker** and designed UI/UX wireframes in **Figma** translated into responsive React components.
- *Awarded an outstanding academic grade of **8/10** by the evaluation board.*

EDUCATION

Higher Technician in Web Application Development
Oct 2022 – Jun 2025

*Cesur, Málaga (Spain) · Final Grade: **8.08 / 10***
